WINERY INFORMATION

In a fertile territory, rich in culture and tradition, whose soil texture and climate are particularly suitable for growing grapes, the Bedin family has been involved in winemaking for generations. The family estate is situated in Cornuda, along the panoramic Montello e Colli Asolani wine route. The use of environmentally friendly growing techniques, the preservation of ancient grapes and the use of modern equipment for the vinification process are all evidences of the importance that both tradition and innovation have for the company. The Bedin brothers monitor each step of the winemaking process – from the growing of the vines to the marketing of the end product – to ensure the compliance with the highest quality standards.

TASTING NOTES

Pale straw-yellow coloured. On the nose it displays an elegant bouquet with typical fruity notes. Full bodied, very elegant sparkling wine with distinctive tiny and velvety bubbles. Fresh on the palate, it is suitable for many occasions thanks to the lower residual sugar.
