ALCOHOL 14.5%

MORE INFORMATION

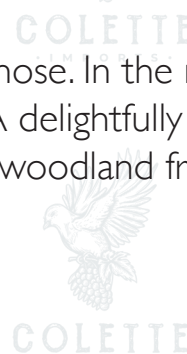

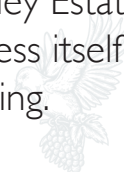

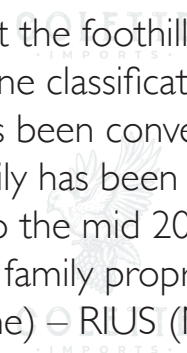

Montirius is situated in the southern Rhône Valley at the foothills of the Dentelles de Montmirail, a 140 acre domain with vine classifications in Vacqueyras, Gigondas and Côtes du Rhône that has been converted to Bio-Dynamic culture since 1996. The Saurel family has been farming this land for a 5 generations. It's origins date back to the mid 20th century. Currently, Eric and Christine Saurel are the family proprietors along with their children: MON (Manon) – TI (Justine) – RIUS (Marius).

Montirius is the 1st Bio-Dynamic Southern Rhône Valley Estate. In order to let the Terroir and the specificity of each plot express itself in their wines, they only use concrete vats without interior lining.

TASTING NOTES

A balanced fresh wine revealing hints of lily on the nose. In the mouth, a lovely freshness, a rich balance and silky tannins. A delightfully fresh, light wine for immediate pleasure, accompanied by woodland fruits.
